The Wedding Situation

by **Mia Mara**

BOOK DESCRIPTION

I'm the only bridesmaid without a date.

So I hook up with a hot older stranger I should never EVER see again.

I'm at my best friend's wedding, feeling like a wallflower... and having one too many pink martinis.

Then I start arguing with an infuriatingly sexy silver fox who follows me into the secluded garden.

Shameless. Persuasive. And devastatingly talented with that sinful mouth.

I hope never to see him again.

He makes millions from failed marriages.

And I provide free couples counseling.

Then he tracks me down with a shocking offer I can't refuse.

He'll save my nonprofit... if I'll fake being his girlfriend for four more weddings.

Just one rule.

Absolutely no falling for each other.

As if that could ever happen.

Until he's kissing me like it's forever.

We're forced to share a bed like it's our own honeymoon.

And somewhere between the champagne toasts and the slow dances... we've got everyone fooled we're in love.

It was supposed to be pretend. We were supposed to walk away.

But the way Reid is looking at me... makes me wonder if he's finally starting to believe in "I do."

This is a full-length standalone, age gap, fake dating romance with delicious forbidden spice. HEA guaranteed!
