ADALINE WINTERS
Christmas Wishes & Other Disasters

Christmas Wishes and Other Disasters

by **Adaline Winters**

BOOK DESCRIPTION

Twenty-five nights. One childhood crush. No chance of a silent night.

The rules of Gran's will are simple.

Live together for twenty-five days and nights.

Survive a meddling grandmother who refuses to let death interfere with her matchmaking plans. Control a foul-mouthed parrot. And outwit a possibly haunted Victorian house with romantic ambitions.

Easy, right?

Except my unwilling housemate is Luke Mercer. My infuriatingly handsome childhood crush, my first heartbreak, and the one man I never quite forgot.

Between meddling neighbors, disastrous Christmas competitions, and a house determined to push us together, keeping my hands off Luke is becoming a full-time job.

And the worst part? He's making me want things I swore I'd never risk again.

I came to Hollywick to inherit a house. I never expected to find a reason to stay.

Welcome to Hollywick, where Christmas comes with a little extra chaos.

This festive romantic comedy has everything you could wish for:

Forced proximity with an infuriatingly handsome childhood crush

Small-town Christmas magic and found family

A meddling grandmother matchmaking from beyond the grave

A foul-mouthed parrot with absolutely no filter

A possibly, maybe, definitely-not haunted Victorian house

Slow-burn chemistry, festive disasters, and plenty of romantic tension

One Christmas. Twenty-five nights. And a love worth risking everything for.
