BOOK DESCRIPTION

With my spicy bucket list, I'll throw away my good girl label once and for all.

I just wasn't expecting my ex's best friend to volunteer.

After an emotionally draining breakup, I'm more than eager for my summer internship in Canada. It's an opportunity to reinvent myself. No longer will I be a mousy, little nobody.

And guess who's on my flight too? My ex's best friend.

Star left-winger, infamous playboy, Nick is the kind of trouble I should avoid. That chiseled jaw, his panty-dropping smirks, and his gaze heats something inside of me I don't understand.

He's traveling for a minor hockey league, and when he discovers my spicy bucket list, he's determined. Nick wants to be the man to guide me through it.

He should be off limits, but I can't seem to stay away. The more this cocky forward teaches me, the more twisted this becomes. I have just one question.

Why did he really come to Canada?

And what happens if he came for me?

[The Wrong Playbook is a high heat slow burn college hockey romance with so much tension, plenty of spice, and a found family like no other! There are heavier topics explored in this novel. For a list of CWs please go to the author's site!]
