BOOK DESCRIPTION

My father calls it protection.

I call it exile.

After the man I was supposed to marry shatters my life, my father sends me to a remote ranch in Black Hollow Creek, Montana, with one order:

Stay put. Heal. Move on.

Instead, I spend my days clashing with Sawyer Bishop.

The broody cowboy who can't stand me. The rancher my father trusts with my life. The man who's always watching.

He thinks I'm spoiled.

I think he's insufferable.

Neither of us expects our constant battles to turn into late-night conversations, lingering glances, and the kind of tension that's impossible to outrun.

Somewhere between all the fighting, Sawyer becomes the

first person to make me laugh again.

The first man I've trusted.

And the ranch becomes the first place that feels like home since my world fell apart.

But monsters don't stop hunting their prey just because it runs.

The past I came here to escape has finally caught up with me.

Only this time...

It isn't just my life on the line.

And the people coming for me are about to learn why no one in Montana crosses a Bishop. Because Sawyer Bishop doesn't just protect what's his.

He buries anyone who tries to take it.
