BOOK DESCRIPTION

A King in dusty leather is better than a knight in shining armor.BOOGEYMAN

Tobias Blake is one of the few human members in the Nevada chapter of the Kings of Anarchy MC. Still, that doesn't give him a moment's pause when his president asks him to marry a woman to protect the club.

The last thing he wants is a wife, especially one he didn't choose, but the Kings will always come first, and protecting their paranormal secret is worth his sacrifice. Officer Davis will have to accept that it's a marriage on paper, and he won't change his life to accommodate her.

MELODY

Melody Davis isn't cut out to be a cop. That is never more apparent than when she misses her partner's glaring obsession with his ex. One he is willing to sacrifice Melody for, to make the twisted scenario in his head a reality.

She'll warn the Kings about her ex-partner's terrifying

fixation, but after that, Melody is done with cops and outlaws, however, no good deed goes unpunished. Melody finds herself irrevocably tied to the Kings and a supernatural world she didn't even know existed.

When it's all said and done, will Boogeyman protect Melody, or will he feed her to the wolves to protect the Kings?
