Popstar Bodyguard Summer

BOOK DESCRIPTION

He’s supposed to protect the popstar from the public — not fall in love with her.HAYDEN

I avoid spoiled rich princesses like my life depends on it. But when I’m tagged to head up my daughter’s favorite popstar’s security team, Gia Golding becomes my top summer priority and the number one pain in my ass. I should focus on the job, not on her laugh, her curve-hugging outfits, or how good she is with her young fans. But when suspicious gifts tingle my Spidey stalker senses, I refuse to let her out of my sight. Too bad it’ll take every ounce of my training to keep her safe, and keep my hands — and my heart — to my damn self.

GIA

Growing up in a famous family, I should know better than to let anyone get too close to me. Especially if I’m paying them. But I can’t help wanting to stick to my irresistibly sexy new Head of Security. Hayden’s everything I’m not: orderly, disciplined, and oh so serious. So, when someone slips past security to leave me eerily personal gifts, Hayden

insists on protecting me ‘round the clock—in his house. And once I get a glimpse of the family man behind the suit and sunglasses, I’m pretty sure the real danger is falling for my bodyguard.
