BOOK DESCRIPTION

When Anna Lopez first met Sylas Lenoir Alves, she wanted nothing to do with him, making it her mission to steer clear of him. Unfortunately for her, Sylas had other plans, proposing a fake dating arrangement that was too good to turn down. What started off as a mutually beneficial arrangement quickly became more after a few fake dates, stolen moments, and lingering touches. Somewhere along the way, they stopped pretending, and what was meant to be temporary turned into something real.

Until it wasn't. What Anna thought was going to last forever turned out to be painfully temporary. Heartbroken and alone, she's left reeling from everything that happened and the shocking realization that she's pregnant.

But a few years later, she managed to build a new life for herself as a single mom in a new city. Determined to make it work on her own, everything changes when Sylas comes back into her life, intent on winning her back. What he doesn't know is that Anna was pregnant when she left…and the child is his.

Now, he has more than just her heart to fight for.
