Thread the Needle

by **Brianne Armst**

BOOK DESCRIPTION

"I was promised everything. He didn't lie—but he withheld the cost. By the time I understood the truth, the price of fame had been paid in blood."

In a world where music carries ancient power, and Gods still collect their debts, a reclusive rockstar frontman and a documentary filmmaker collide at the edge of fame, sobriety, and destiny.

Bound by fractured souls, shared trauma, and a dream realm that refuses to stay buried, their connection feels dangerously familiar—as though lived before and lost. As divine forces pull at the seams of their identities, love becomes a threatening temptation.

Thread the Needle is a haunting contemporary fantasy romance about recovery, anonymity, and the cost of surviving what once saved you.

If you enjoyed the Invisible Life of Addie La Rue by VE Schwab, for its immortal longing, fate, bound, love, and lyrical, myth-infused prose, Daisy Jones and The Six by

Taylor Jenkins Reid, for the collision of music, fame, addiction, and an intimate, emotional fallout—this novel is perfect for you!

Tropes:

-Fated/soul-bound romance

-Slow burn/ high tension romance

-Celebrity x civilian romance

-Masked rockstar romance

-Grumpy MMC

-Competent FMC

-Characters over 30

-Forced proximity

-Ancient gods in the modern world

-Addiction/recovery arc

-Mythology reimagined
