by **Brooke Summers**

BOOK DESCRIPTION

He was never supposed to be the safe choice. He was supposed to be one night.

Erin Walsh goes to Vegas for work and leaves with bruises, a secret, and the memory of the dangerous stranger who gave her a locked door and the freedom to walk away.

Landon King trusts very few people. He learned young that family is something you build, and betrayal is something you survive. He doesn't do relationships, he doesn't make promises, and after the last woman he trusted nearly destroyed everything he loved, he has no intention of changing that.

Then Erin walks back into his life.

She wants him, but she needs to know he's choosing her because he wants to, not because he feels responsible, and not because someone else has decided where he belongs.

So she keeps one thing from him. She's carrying his child.

But the man hunting Erin has been watching longer than

either of them realized, and when he finally makes his move, Landon learns the truth with Erin already out of reach.

Landon spent his life believing love gives people something to use against you.

Now the woman he loves is in the hands of a man who knows exactly what she means to him.

And Landon King will burn through anyone standing between them.
