

PLEASE, CALEB?

A DRIVEVERSE NOVELLA

IGNITION

BEX DEVEAU L.E. ELDRIDGE

Ignition

by **L.E. Eldridge, Bex Deveau**

BOOK DESCRIPTION

From the authors of the Streamverse, Bex Deveau and L.E. Eldridge, comes a rut-packed car ride you'll never forget!

My dad has lost his mind.

I can imagine your wife running away with your driver would do that to anyone. But why did it have to become my problem? Not only did he move his gold-digging girlfriend into my house, but now her daughter is coming to *ruin* my summer.

At least I have Nick. He's been my friend since childhood, and as the son of said driver my mother ran off with, he understood me better than anyone.

So why do things still feel so... off with us?

Nothing a surprise rut in the middle of a storm can't fix... right?

Ignition is an MM prequel novella to OVer Drive: A Street Racing Omegaverse! If you love high heat, alphas in rut, and brat training, pick it up today! For a full list of trigger

warnings, please visit the author’s website.
