BOOK DESCRIPTION

I was born into hockey royalty, but I was never meant to inherit the throne.

At least, that's what my family made sure I believed.

After years of running from the Winslow name, I'm dragged back into the world I fought to escape and forced into an internship with the Valehurst Kings.

It's the last place I want to be. The Kings aren't just brutal, untouchable hockey gods. They're the only men who know what happened the night that ruined me.

Lucian is chaos with a wicked smile and blood on his knuckles. Ronan is control sharpened into a weapon. Silas is quiet intensity, all watchful eyes and secrets written in silence.

I should hate them. Fear them. Stay as far away from them as possible. But the closer they get, the harder it is to tell the difference between danger and protection.

They see the girl beneath the last name. The survivor

beneath the scars. The future I was told I could never claim.

And when the truth finally starts to unravel, I have to decide if I’m brave enough to stop running.

From my past.

From them.

From the throne that was always supposed to be mine.

***Top Shelf is a dark, contemporary, hockey romance with they fall first, possessive, protective MMCs. The FMC ends up with more than one love interest. The series consists of interconnecting standalones that can be read in any order.
