Scar Tissue

by **A.S. Lorenzen, Vanessa Barbas**

BOOK DESCRIPTION

Thea never thought the future once filled with white picket fences, flower baskets lining a wraparound porch, and the giggles of a growing family would be ripped away from her so suddenly. First came the stillbirth of her daughter. Then the betrayal of the husband who was supposed to help her survive it. Left with nothing but grief and nowhere else to turn, Thea leaves her old life behind and heads home with her best friend, Dylan—never expecting to end up under the same roof as Nathan Adams.

Her brother's best friend.

Her childhood crush.

Her greatest what if.

And yet another man who left her in pieces.
