BOOK DESCRIPTION

He drives it like he stole it - because he did.

Colt Rourke is a street racer with a criminal record, a dead brother's ghost in the passenger seat, and one shot at going pro. All he has to do is survive six months of training with Beauregard Moore — a retired NASCAR legend who hasn't touched a steering wheel in twelve years and has zero interest in coaching a reckless kid with a death wish.

Beau knows better than to get involved. Colt is impulsive, mouthy, and exactly the kind of chaos that got the last person Beau loved killed. But the kid can drive — raw and reckless and fearless in a way that makes Beau's hands itch for the pit box again. What neither of them plans for is the pull. The way Colt goes quiet when Beau's voice drops. The way Beau can't stop reaching for a boy he has no business wanting. The way the power between them shifts from professional to something darker, hotter, and infinitely more dangerous.

With a career-making tryout on the line and a past that won't stay buried, Colt and Beau are on a collision course —

and in racing, the crash is never the part that kills you. It's the aftermath.

Jackrabbit is Book 1 of the Redline Series. It features an age-gap MM romance, enemies-to-lovers tension, a D/s dynamic that builds from the ground up, and enough heat to melt asphalt.
