
Highland Stars
A sweet vacation romance
LINDSAY ROCHESTER

Highland Stars

by **Rochester Lindsay**

BOOK DESCRIPTION

I can see myself falling so obnoxiously in love with her that my family would force me to move anyway.Plagued by the memory of her ex's voice and the sting of her recent firing, Makenna Fore flees to Scotland on the vacation of her dreams. She expects stunning views, lots of history, some sheep, and maybe even a kilt or two. What she did not expect was to land in the hospital. Even more, she would never think she'd end up in her doctor's care afterwards.

Emergency Department physician, Malcolm Robertson, isn't looking for love. Especially not with a woman who doesn't call the Scottish Highlands home. But when the same woman is unexpectedly thrown into his life twice in less than twenty-four hours, he straightens up and takes notice.

But what happens when their attraction threatens to outlast the vacation?

Get swept away to the Scottish Highlands in this whirlwind vacation romance. Perfect for fans of Courtney Walsh and couples that banter. Highland Stars is a sunshine/sunshine romance.
