BOOK DESCRIPTION

Fae has survived monsters before.

And this time, she knows exactly what it takes.

Trapped, brutalised, and at the mercy of a man who mistakes control for power, every touch becomes a weapon. Every reaction, a choice.

The only way out is not to fight…

But to make him believe she has already lost.

Roman knows one thing.

Fae didn't run.

With no trace and no answers, he begins to dismantle everything in his path, tearing through bloodlines, loyalties, and carefully constructed lies to bring her home.

But the deeper he digs, the more dangerous the truth becomes.

And as secrets unravel, Fae and Roman are forced into a

game where trust is fragile, loyalty is manufactured, and nothing is what it seems.

Dark romance • Obsessive MMC • Secret society • Damaged FMC • Found family
