Love Me Deerly

by **Trisha Linde**

BOOK DESCRIPTION

This Christmas, fate's gift is the mate he never knew he had.

As a reindeer born to wolves, omega Rudy has never felt like he belongs. His family loves him, sure, but will they ever understand him? They're carnivores, he's an herbivore. They have claws and teeth, while he has hooves and antlers that fall off every year. With Christmas approaching, the urge to go out on his own to find his herd is nearly impossible to ignore. Just one more pack run, he tells himself. And then it's time to be free.

Human alpha Bishop is doing the best he can, but what if his best isn't good enough? As a single dad, all he wants is for his son to grow up healthy and happy, but lately, his reindeer farm hasn't been doing well. It's getting harder and harder to make ends meet, and if things don't turn around, this might be their last Christmas on the farm.

When a pack of wolves comes hunting his herd, Bishop will do anything to protect his livelihood—but he never meant for a reindeer to get hurt. And he certainly never meant to

fall in love.

Love Me Deerly is part of the multi-author, gay romance, mpreg shifter His Reindeer Mate For Christmas series. It features a single dad who would do anything for his son, a shifter who makes his fated mate's son a priority, a seven-year-old who believes in magic without question, and the family they build together in their small mountain town—sweet baby included. Each book can be read as a standalone, but why stop at one when you can read them all!
