BOOK DESCRIPTION

I've watched Avianna from afar, her quiet strength shining through as she worked tirelessly at the local diner. I've sat at the diner everyday knowing I get to catch a glimpse of her beauty. I know she's running from something I can see it in the way she tenses every time someone walks in the door, and Avianna's past is catching up with her, when I step in to save her from her uncles wrath. Fear and danger lurk in every shadow, but I'm not the type to turn away from a fight. I vow to keep her safe, no matter what it takes. Bringing her home, I find myself falling deeper in love with her, willing to do whatever it takes to protect her from the man relentlessly coming for her blood. She's my ole lady and he's crossed into The Lost Saints territory, and I'm just the man to show him how wrong that truly was. Because once you cross us, there's no going back.
