The Bride Who Chose The Enemy Alpha: An Enemies-to-Lovers Werewolf Romance

by **Mathilde R. Eberhardt**

BOOK DESCRIPTION

Three days before my wedding, I discovered my fiancé planned to steal my pack.

And I was about to hand him the power to do it.

I thought marrying Dane Harrow would save Riverbend. Our people needed money, our river crossing was failing, and his family had promised the support we desperately needed.

Then I found the hidden clause in our marriage papers.

One signature would give him my council vote. One vote could help his family seize control of everything we'd fought to protect.

So I took the evidence to the one man my family warned me never to trust.

Elias Rook. Alpha of Greyhaven. My pack's most dangerous

rival.

He's powerful, infuriatingly attractive, and responsible for a decision that once left my people stranded during a devastating flood.

I should hate him.

Instead, he offers me thirty days of protection, access to the evidence I need, and a chance to fight back without surrendering my independence.

I agree to his terms.

I never expect the man I distrust most to become the one person willing to tell me the truth, even when it costs him.

Then the threats grow, our families' secrets begin coming to light, and a dangerous attraction develops between us.

Every stolen kiss makes it harder to remember why I should keep my distance. Every secret we uncover brings us closer to a betrayal neither of us can afford.

And when another storm threatens Riverbend, my former fiancé offers the one thing my people desperately need.

Money.

But accepting his help could give him the control he wanted

all along.

Now Elias must choose how much he's willing to sacrifice to stand beside me.

And I must decide how much of my heart I dare trust to the enemy Alpha.

I was supposed to marry one man to save my pack.

I never expected to risk everything for the Alpha who could steal my heart.

An emotional, sensual enemies-to-lovers werewolf romance featuring a betrayed bride, a protective rival Alpha, dangerous family secrets, forbidden attraction and a hard-earned happily ever after.
