BOOK DESCRIPTION

Drix and Myome's marriage is still making headlines and their careers aren't making it any easier. With a thriving label, a failed girl group, and delusional exes who refuse to let go, the couple's foundation is cracking under pressure. Now, caught between the music industry, family obligations, and the weight of everything changing around them, they're forced to confront a hard truth: life doesn't always go according to plan. Unfortunately neither does love. As the drama closes in from every direction, Drix and Myome must ask themselves the one question they've been avoiding: is their relationship still worth fighting for?
