This Time Around

by **Harper Rae James**

BOOK DESCRIPTION

She's always been off limits. He's finally done pretending he doesn't want her.

one reckless night with the wrong man, Blake is done chasing love. Done believing in forever. Done being the girl who always ends up with a broken heart. Then she crashes—literally—into Luke.

Her best friend's older brother.

Twelve years older. Freshly divorced. And the one man she's wanted for years but never let herself have.

Luke has spent his entire life doing the responsible thing. But after a marriage built on settling instead of love, he's finished denying what he wants.

And what he wants... is Blake.

Giving in means risking everything—the friendship that made them family, the people they both love, and the fragile life Luke has only just begun rebuilding.

Walking away would be the smart choice.

Too bad neither of them has ever been able to forget the spark between them.

Because this time, Luke isn't letting her go without a fight.
