He's A 10 But... He Bites

by **Vixen Voss, Milly Taiden**

BOOK DESCRIPTION

She stole the wrong relic.

Now she's mine.

I'm a monster. The Black Fang. Four centuries of hunting down threats—and one reckless human thief just woke the most dangerous one of all.

Riley Harrow. Chestnut hair, clever hands, and a pulse that calls to the monster in me like nothing ever has.

The obsidian only answers to her. My mate bond only burns for her.

Every faction in our world wants her dead or leashed.

They'll have to go through me first.

I should end her. Instead I'm claiming her. Protecting her. Ruining her for anyone else while we chase secrets older than my blood.

She ran with my relic.

She's not running from me.

Read on for a fanged, four-hundred-year-old book boyfriend, a mouthy thief who steals his cold heart, fated-mate obsession, ancient conspiracies, and an alpha who'll burn the world to keep what's his. He's a 10... but the bite is the best part. HEA guaranteed!
