BOOK DESCRIPTION

Cherry survived the impossible. Escaped the facility that tortured her and found safety with five alphas who refuse to let her face the world alone. But survival is only the beginning.Although they've figured out a way to help her shift, and she can finally start to communicate with them, it comes with complications that stop her from shifting on her own.

And getting her voice back only raises more questions. Why does death refuse to take her? What did the facility do to her? And what is the powerful bond forming between her and the five males who refuse to leave her side?

A bond that shouldn't exist.

Their plan is simple: leave Westgrove behind and search for Starfall Haven, a sanctuary where supernaturals can live in peace.

But Cherry's past isn't done with her.

Someone is watching from the shadows. Leaving gifts

meant only for her. Twisted reminders that the nightmare she escaped might not be over after all.

Because the person hunting Cherry doesn’t just want her back.

He believes she belongs to him.
