BOOK DESCRIPTION

He saved her life. Now he can't let her leave.

Kate Darcy came to New York with one dream: find the father she'd never met. Instead, she ends up alone, injured, and stranded after a brutal attack leaves her with nowhere to go.

Roman Hayes doesn't believe in fate, love, or second chances. The self-made billionaire built his empire by controlling everything around him—especially his emotions. Bringing a vulnerable stranger into his home breaks every rule he's ever lived by. But what choice does he have? He lost his sister to the streets of New York; maybe protecting this stranger will offer some kind of redemption?

A dark, emotionally-charged billionaire romance featuring an obsessive protector hero, sizzling tension, found family, and a guaranteed happily ever after.
