BOOK DESCRIPTION

Inside this book - Biker MC - He Falls First - Touch Her and Die - Protective Alpha - Forbidden/Secret Love - MC Princess

She's the President's sister. Off-limits. Untouchable.

I'm just a prospect — hungry for the patch, desperate to prove I'm more than the kid King pulled off the streets. One wrong move and I lose everything.

Then Naomi comes home. Broke and broken, running from a life that fell apart. Wild. Reckless. Trouble in every way that matters.

I'm supposed to watch her. Protect her. Report back to her brother.

Instead, I fall. Hard. Fast. The kind of fall you don't walk away from.

But when danger finds her, I stop caring about the rules. I stop caring about the patch. I put myself between her and the threat, and I don't stop fighting until they're on the ground.

She's worth getting hurt for. Worth the betrayal. Worth losing everything.

I just hope King sees it that way.

A standalone book in a connected world. Always HEA's, never cliffhangers or cheating. These guys fall hard and fast and there is always steam. Designed to be read in 90 minutes for a quick hit of alpha biker who'll get you hot under your collar!
