Zenith Tower

BOOK DESCRIPTION

Astra Verita survived Zenith Hall.

Now the Tower wants to know why.

After refusing the Council's chosen bond and binding herself to Caspian Ashford on her own terms, Astra is taken beyond the school's hidden door with three men still tied to her Mark: Caspian, the heir who chose her over obedience; Kieran, whose dying Mark may be beyond saving; and Jonah Hale, whose lifelong suppression is beginning to break.

Zenith Tower exists to contain everything the academy would rather erase. Behind its glass and pale stone, people like Astra are studied, catalogued, and quietly disappeared.

Delphine left a trail.

Sadie left a warning.

And Astra's mother left her name buried inside a file someone removed before Astra arrived.

The Council wants one answer.

Astra’s Mark keeps choosing three.

And inside Zenith Tower, every bond has a cost.

Zenith Tower is Book Two in The Star-Marked, a spicy dark fantasy why-choose romance. The series must be read in order.
