Omega Scorned

by **C.T. Rhames**

BOOK DESCRIPTION

I was just a placeholder omega.

Someone to enjoy while they waited for their real mate. A toy to please them until SHE came along.

And when they found her, I was tossed aside like so much trash. But my story doesn't end here. I'm stronger than the alphas who refused to bond me think.

My alphas must be out there somewhere, if I can just find them. Before it's too late and this unwanted pack takes me out for good.
